Macintosh: Auto-connect to a Share Drive at Login

Important: Make sure the Share Drive is already connected to follow these instructions.

1.) On the menu bar, click the Apple icon.
2.) Click System Preferences...

1.) In the new System Preferences window, click Show All.
2.) Under the System heading, click Users & Groups.

Note: For Mac OS X 10.6 Snow Leopard and older, the User & Groups icon is named Accounts.

1.) In the Users & Groups windows, click your username on the left side.
2.) Click on the Login Items tab.
3.) Click the + button towards the bottom of the tab.

Continued on back page...
Macintosh: Auto-connect to a Share Drive at Login (continued)

1.) At the top of the new roll-down sheet, click on the location drop-down.
2.) Select your Macintosh from the list.

1.) Click to highlight the Share Drive in the list.
2.) Finally, click on the Add button.

Notice the Share Drive shows in the Login Items list. This Share Drive will now connect automatically when you log in to the Macintosh.

You can now close Systems Preferences.
